Dear Westertill homes,

We loved the excitement in all activities. We enjoyed building the houses with the recycled materials you gave to us. We hope you come back because we loved spending time with the team. The whole of Scotney class thought that you were the most amazing visitors yet. Every one was playing with the toys in the goody bags. The best part was probably building the cages/ restaurants or homes. This was a wonderful experience for all of us. Lots of us have seen the site in progress and we would love to see it being built. We also loved the game at the end of the day thank you.

Yours sincerely  
Scotney class
